

IEEE Signal Processing Society 2024-2029 Strategic Plan-Executive Summary

Mission Statement:

The Signal Processing Society is an international organization whose purpose is to: advance and disseminate state-of-the-art scientific information and resources, educate the signal processing community, and provide a venue for people to interact and exchange ideas.

Vision Statement:

The Signal Processing Society is a dynamic organization that is the preeminent source of signal processing information and resources to a global community. We do this by: being a one-stop source of signal processing resources; providing a variety of high quality resources to a variety of users in formats customized to their interests; adapting to a rapidly changing technical community, and being intimately involved in the education of signal processing professionals at all levels.

In addition, the Signal Processing Society is deeply invested in providing a professional home for signal processing professionals at all levels who utilize signal processing and related concepts and techniques. We provide career development opportunities to members and nurture future leaders to advance the field.

Diversity Statement:

The IEEE Signal Processing Society adheres to the IEEE Code of Conduct. It is committed to providing equal opportunity to its members, regardless of ethnicity, race, nationality, disability, socioeconomic status, sexual orientation, religion, gender, age, and personal identity. The Society is committed to a welcoming and inclusive environment that promotes diversity and inclusive excellence in the signal processing community.

2024-2029 Strategic Goals

- Lead in technical excellence in signal processing and related fields and expand scientific knowledge in new areas.
- Increase industrial engagement and cultivate early-career member engagement and volunteer development.
- Develop and deliver high-quality professional educational training to support life-long learning.
- Foster diversity and inclusion of members and volunteers in the global community.
- Evolve our organizational structure and technical scope to address challenges, embrace opportunities, and support growth.

Delivering on the Plan

The IEEE Signal Processing Society aims to create an inclusive, collaborative environment that promotes scientific excellence for all.
