

Journal of Selected Topics in Signal Processing
Special Issue History

Publication date	SI Title	Lead GE
June 2007	Adaptive Waveform Design for Agile Sensing and Communication	Arye Nehorai
August 2007	Network-Aware Multimedia Processing and Communications	Adriana Dumitras
October 2007	Performance Limits of Ultra-Wideband Systems	Brian M. Sadler
December 2007	Convex Optimization Methods for Signal Processing	Yonina Eldar
February 2008	Signal Processing and Networking for Dynamic Spectrum Access	Ananthram Swami
April 2008	MIMO-Optimized Transmission Systems for Delivering Data and Rich Content	Homayoun Yousefi'zadeh
June 2008	Genomic and Proteomic Signal Processing	Dan Schonfeld
August 2008	Distributed Processing in Vision Networks	Hamid Aghajan
October 2008	Signal Processing for Space Research and Astronomy	Amir Leshem
December 2008	fMRI Analysis for Human Brain Mapping	Tulay Adalı
February 2009	Digital Image Processing Techniques for Oncology	Jinshan Tang
April 2009	Visual Media Quality Assessment	Lina J. Karam
June 2009	DSP Techniques for RF/Analog Circuit Impairments	Noafal Al-Dhahir
August 2009	Advanced Signal Processing for GNSS and Robust Navigation	Mohamed Sahmoudi
October 2009	Advanced Signal Processing for GNSS and Robust Navigation	Mohamed Sahmoudi
December 2009	Managing Complexity in Multiuser MIMO Systems	Gerald Matz
February 2010	MIMO Radar and its Applications	Jian Li
April 2010	Compressive Sensing	Richard Chartrand
June 2010	Model Order Selection in Signal Processing Systems	Hsiao-Chun Wu
August 2010	Signal and Information Processing for Social Networks	K. J. Ray Liu

October 2010	Speech Processing for Natural Interaction with Intelligent Environments	Zheng-Hua Tan
December 2010	Statistical Learning Methods for Speech and Language Processing	Xiaodong He
February 2011	Cooperative Communication and Signal Processing in Cognitive Radio Systems	Qinqing Zhang
April 2011	Recent Advances in Video Processing for Consumer Displays	Dan Schonfeld
June 2011	Advances in Remote Sensing Image Processing	Gustavo Camps-Valls
August 2011	Gossiping Algorithms Design and Applications	Anna Scaglione
September 2011	Adaptive Sparse Representation of Data and Applications in Signal and Image Processing	Jean-Luc Starck
October 2011	Music Signal Processing	Meinard Müller
November 2011	Emerging Technologies for Video Compression	David R. Bull
December 2011	Soft Detection for Wireless Transmission	Rong-Rong Chen
February 2012	Robust Measures and Tests using Sparse Data for Detection and Estimation	Hsiao-Chun Wu
April 2012	Game Theory In Signal Processing	Eduard A. Jorswieck
June 2012	Signal Processing In Heterogeneous Networks For Future Broadband Wireless Systems	Robert W. Heath Jr.
August 2012	Signal Processing Methods In Finance And Electronic Trading	Ali N. Akansu
September 2012	Emerging Techniques in 3D	A. Aydın Alatan
October 2012	New Subjective and Objective Methodologies for Audio and Visual Signal Processing	Weisi Lin
November 2012	New Filtering and Segmentation in Mathematical Morphology	Laurent Najman
December 2012	Advances in Spoken Dialogue Systems and Mobile Interfaces: Theory and Applications	Kai Yu
February 2013	Anomalous Pattern Discovery for Spatial, Temporal, Networked and High-Dimensional Signals	Venkatesh Saligrama
April 2013	Adaptation and Learning over Complex Networks	Ali H. Sayed

June 2013	Multi-target Tracking	Mahendra Mallick
August 2013	Differential Geometry in Signal Processing	Jonathan H. Manton
October 2013	Learning-Based Decision Making in Dynamic Systems under Uncertainty	Qing Zhao
December 2013	Video Coding: HEVC and beyond	Yun He
February 2014	Non-cooperative Localization Networks	R. Michael Buehrer
April 2014	Statistical Parametric Speech Synthesis	Jianhua Tao
June 2014	Perception Inspired Video Processing	Hari Kalva
August 2014	Signal Processing in Social Networks	H. Vincent Poor
October 2014	Signal Processing for Large-Scale MIMO Communications	Geoffrey Ye Li
December 2014	Signal Processing in Smart Electric Power Grid	Yih-Fang Huang
February 2015	Visual Signal Processing for Wireless Networks	Vladan Velisavljevic
March 2015	Signal Processing for Situational Awareness from Networked Sensors and Social Media	Amit K. Roy-Chowdhury
April 2015	Interactive Media Processing for Immersive Communication	Gene Cheung
June 2015	Big Data	Georgios Giannakis
August 2015	Spatial Audio	Lauri Savioja
September 2015	Advances in Hyperspectral Data Processing and Analysis	Saurabh Prasad
October 2015	Signal and Information Processing for Privacy	Wade Trappe
