

SSP 14

IEEE Statistical Signal Processing Workshop 2014
29 June–2 July ♦ Gold Coast, Australia

Final Call for Papers Jupiter's, Gold Coast, Australia

Plenary Speakers: Louis Scharf (Colorado State),
Arnaud Doucet (Oxford), Michael Unser (EPFL),
Victor Solo (UNSW), Brian Anderson (ANU),
Steven Tingay (Curtin).

Topic Areas: adaptive systems & signal processing,
detection & estimation theory, learning theory & pattern
recognition, multivariate statistical analysis, system identification
& calibration, Monte Carlo methods, network & graph analysis,
random matrix theory, time-frequency & time-scale analysis,
compressed sensing, point process estimation.

Extended Paper Deadline: **28th February, 2014**
